

COURSE OUTLINE

COBIT® 5 Foundation

DURATION	LEVEL	TECHNOLOGY	DELIVERY METHOD	TRAINING CREDITS
3 Day(s)	Foundation	Business Frame for Governance & Management of Enterprise IT	Classroom/Virtual	N/A

Course Overview

The COBIT® 5 Foundation course is an interactive, classroom-based learning experience. Participants learn about the need for an IT governance framework and how COBIT addresses this need by providing the latest insights into enterprise-wide governance of IT.

This course explains the elements and supporting materials of the COBIT framework, using a logical and example-driven approach for anyone interested in obtaining COBIT foundation level knowledge.

COBIT 5 Foundation is the first step to enroll into COBIT 5 Implementation and COBIT 5 Assessor courses. The COBIT 5 Foundation exam is a prerequisite to attaining the COBIT 5 Implementation and COBIT 5 Assessor exams.

Prerequisite

- There are no formal prerequisites. However, it is recommended that you have experience in the IT governance domain.

Audience

- A wide range of business managers, IT management consultants, IT governance professionals, and auditors who wish to gain a better understanding of COBIT 5 and what the framework can provide their organization.

- Relationship between stakeholder needs and governance
- Implementation approach for the use of COBIT 5
 - Structure of COBIT 5 process reference model
 - Governance and management domains
 - Components of COBIT 5 processes
 - Need for capability assessments
 - COBIT 5 ISO/IEC 15504 approach
 - Application of COBIT 4 maturity model approach with COBIT 5
 - Other COBIT 5 enablers for IT governance and management

At course completion

After completing the COBIT 5 Foundation course, delegates will gain competencies in:

- Key challenges of using IT
- IT governance concepts and benefits
- COBIT 5 framework, principles, and enablers
